

Bagas Agung Pramudya

Electronics Engineering

About Me

I am an Electronics Engineer with expertise in PLC programming and PCB design using EasyEDA, experienced in developing industrial automation systems and electronic hardware from schematic design to production-ready PCBs. Proficient in creating automation control programs using platforms such as Omron (CX-Programmer), with strong knowledge of sensor integration, actuators, and HMI interfaces for various industrial applications.

Contact

-  +62 8953-9619-4081
-  @bagaskoci157@gmail.com
-  Kec. Pati, Kab. Pati, Jawa Tengah 59118

Skills

- PCB Design
- Programming PLC
- Assemble the Power Amplifier
- Upgrading Motorcycle Lights

Language

- Indonesia
- English

Education

(2019 – 2022)

SMA PGRI 1 PATI

Major : MIPA

(2022 – 2026)

POLITEKNIK NEGERI SEMARANG

Major : Electroniocs Engineering

Experience

- mechanic upgrading motorcycle lights
- once worked in a welding workshop as a helper
